Shady Brook Launches on PC, iOS, and Android
Explore a small town filled with secrets!

Delve into a dark mystery set in a small town with *Shady Brook*, a brand new text adventure inspired by *Twin Peaks* and developed by [Unimatrix Productions](#).

In **Shady Brook**, author Jake Torrent moves to the small, peaceful country town of Shady Brook. At first, everything seems idyllic. But after a resident commits suicide, Jake starts to suspect foul play. Could this town take part in a conspiracy to cover up a murder? As Jake investigates, he gets more than he bargained for: a town secret so terrifying that there is no turning back...

Playable Demo: www.unimatrixproductions.com/shady_brook_demo.zip

Shady Brook is a remake of the 2005 point-and-click adventure game which was critically praised for its mature storyline and quirky characters. It was the recipient of Adventure Archive's prestigious "Best Independent Game 2005" Award.

Shady Brook puts a unique spin on classic interactive fiction. You make a series of choices that determine what happens next in the story. However, unlike traditional choose-your-path games, gamebooks, and visual novels, **Shady Brook** includes advanced adventure-based mechanics, such as a compass for navigation, a full-fledged inventory system, character interaction with branching dialog, and a variety of complex puzzles to solve.

Game Features:

- EXPLORE a small country town and INTERACT with nearly two dozen characters
- CHOOSE your path--your actions alter the course of the story
- PICK UP, COMBINE, and USE a multitude of inventory items
- SOLVE a variety of challenging and unique puzzles
- DISCOVER the town's terrifying secrets in a truly dark and mature storyline
- ENJOY over 250 pieces of original artwork and an hour-long soundtrack
- UNLOCK 33 achievements to view a special post-game bonus scene
- EXPERIENCE 8+ hours of content--the equivalent length of a novel!

Shady Brook tells a mature, dark story that is seldom seen in modern gaming. It is now available completely uncensored on the PC and partially censored on iOS and Android.
